

# It's a WIN—WIN Relationship

## *Who We Are & What We Do*

**The Interface Financial Group provides short-term cash flow assistance for small businesses by purchasing selected invoices at a discount. For more than 30 years, we have been working with small expanding companies who find it difficult to attract conventional funding.**

Because Interface offers our clients a “use it as you need it” transaction each “invoice purchase” is a separate transaction and does not form part of a portfolio lending approach. The Interface transaction is modeled on a “buy-sell transaction”.

- ◆ On being approached by a prospective client IFG undertakes a due diligence program that typically takes about 4-5 business days
- ◆ Once completed the client is at liberty to offer invoices to IFG for purchase
- ◆ On receipt of such invoices, IFG will check the credit of the debtor named on the invoice and also that the sale represented by the invoice has been satisfactorily complete
- ◆ Once this is done the debtor is advised of the purchase by IFG and the client is paid for the invoice.
- ◆ At the end of the credit period the debtor will make payment directly to IFG thus completing the transaction.

**Our service is user friendly, fast, flexible, and cost effective!** If the client chooses to offer further invoices to Interface the total transaction time is often reduced to just 48 hours.

**While IFG is a multinational organization, with more than 140 offices in the US, Canada, New Zealand, and Australia, we are still local!**

*You work with the local office, meeting face-to-face, building a working relationship with professionals who understand the local environment, get to know you, your business, and your unique requirements and situation.*

*With IFG you have a business resource you can count on.*

“Interface is North America’s largest alternative funding source for small business”
